Garland County Burn Ban

Effective immediately:

A burn ban has been issued for Garland County.

We have several outdoor evaluation sites for the coronavirus that is gripping our nation, and the COVID19 virus has severe respiratory issues connected with it. In the event someone is quarantined at home with the virus, we do not need the air filled with smoke under these circumstances. Please take a moment to think about the individuals involved in the evaluation centers and those who already may be quarantined at home and suffering from respiratory issues.

Any questions, I will be glad to answer them.

Darryl Mahoney

Garland County Judge
